

### International Conference on Mobile Technology in Teacher Education

Dear Dr. Richard Salmon,

Thank you for your submission to MiTE 2019, the fifth international conference on mobile technology in teacher education.

While your proposed paper **“MARVIN – A 3D Printed, Internet Enabled Product Design and Staff Development Project”** is not specific to Mobile Technology in Teacher Education\* we do believe your contribution would be of interest to our delegates and add value to our conference.

**We invite you to consider presenting your research in our ‘MiTE Short Paper Tract’.**

Short papers will be 10 minute presentations at MiTE conference.

Please register for the conference as soon as possible [here](#) (early bird registration ends December 1st).

If you are unable to attend and present your paper, we would appreciate if you would reply to this email so that we can remove your paper from our schedule.

We look forward to seeing you in Sydney in January 2019!

Best regards,  
Dr Damian Maher, Annie Agnew & Seán Ó Grádaigh  
MiTE Editorial Board  
On behalf of the [MiTE Conference 2019](#)

\* Not specific to Teacher Education but would be of great interest to our delegates
